One of the most important things you can give your child is a love of learning. Our School Skills classes for children ages 3-5 focus on key social skills that will help prepare your child for school and life-creating confident and curious learners!. IN addition to letter/number/shape recognition, art, science and literacy students will be involved in activities that promote socialization, learning to take turns, Patience, and expressing feelings. Hands on tactile experiences are key methods in our instruction.
